## Anti mouse AQP4 mouse monoclonal antibody

AQP4: Aquaporin 4

Code No				
Code No	PP-E5415B-0C-25	Application / Recommended Concentration  In order to obtain the best results, optimal working dilutions should b determined by each individual user.		
Clone No.	E5415B	Westerr	•	Not applicable
Lot.	B-1			
Concentration	1 mg/mL	Non red	lucing Western Blot	Not applicable
Volume	25 uL	ELISA		Cell-Based ELISA 0.1 ug/mL
g Class	G2a	Immuno	pprecipitation	Not yet tested
Description	AQP4 (Aquaporin-4) is a water channel protein primarily found in the central nervous system,	Supershift Assay		Not yet tested
	residing in cell membranes. AQP4 facilitates the movement of water and maintains water balance within the brain, regulating the flow of cerebrospinal fluid. Aberrations in this protein are associated with	Chromatin immunoprecipitatic Immunohistochemistry		Not yet tested
	conditions like brain edema, particularly in the context of neuroimmune disorder neuromyelitis optica (NMO).			Not yet tested
Genbank	U88623			
Origin	Hybridoma obtained by fusion of mouse myeloma cells with spleen cells from AQP4KO mice immunized with mouse AQP4 recombinant.			
	with mouse AQI + recombinant.	Storage	Store at 2 - 8 °C up t	o one month. For long-term storage,
Epitope			the solution may be f	rozen in working aliquots. Repeated is not recommended. Storage in a
Specificity	This antibody reacts specifically with mouse AQP4 M23 (isoform1).			
	•	Reference	Huang, P, et. al. (201	6). Biochem Biophys Rep. 7:77-83.
Purification	Affinity chromatography with Protein A			
	Allillity Cirollatography with Protein A
